Have You or Your Child Been Diagnosed With Asthma?

- Are you or your child 12 years of age or older?
- Have you or your child taken steroids from the ER, urgent care, or your doctor for an asthma exacerbation in the last 12 months?
- Are you or your child willing to participate in a 26 week study?

If you answered YES to all of the above, then you may be eligible to participate in a research safety study using one of 2 medications that has already been FDA-approved.

Qualified participants will receive study medication and study related care at no cost during the study. You may be compensated for your time and travel.
